Consignor: Triple T Farm

Take advantage of this rare opportunity to buy a daughter of one of the legendary bulls Y702. There are not many of them around and especially like this one just coming into her prime. She is moderately framed and has beautiful udder and teats. She did a great job with her first calf and bred back quickly proving her maternal traits. She sells AI safe for a late February calf to 12HD HB019398. Calf will be black and has a 50% chance of being homozygous black.
